Experience

DapLink

Full Stack Engineer, Technical Ownership

Sept. 2025 - March 2026

New Delhi, India

- Founding engineer of a link-in-bio tool, architecting a "Digital Access Point" to unify professional identities.
- Engineered a high-performance URL shortener and a dynamic drag-and-drop interface for real-time link management.
- Developed a physical-to-digital bridge by generating unique QR codes for seamless offline portfolio sharing.

Freelance Web Developer

Bizbyte

Aug. 2025 - Oct. 2025

Remote

- Architected and developed high-performance web applications using Next.js and React, ensuring 100% responsiveness.
- Translated client requirements into technical specifications, delivering scalable solutions that improved engagement.

Technology Intern (Virtual Experience)

Deloitte

July 2025 - Aug. 2025

Remote

- Completed a job simulation focused on technology consulting and software development best practices.
- Analyzed client project requirements to propose strategic technical solutions, simulating real-world developer workflows.

Projects

Flytics | React, Node.js, MongoDB Aggregate Pipelines

Feb. 2026 - March 2026

- Developed a specialized sugar monitoring web application for real-time health tracking.
- Integrated automated tracking features to streamline health monitoring for Type 1 Diabetes users.

Chai-Otic | Next.js, MongoDB, NextAuth, Razorpay

Jan. 2026

- Developed a full-stack creator monetization platform allowing fans to support creators financially.
- Integrated Razorpay for secure payment processing and NextAuth for user authentication.

Quick-chat | Node.js, MongoDB, Socket.io

Jan. 2026

- Implemented WebSockets via Socket.IO for low-latency, bi-directional communication.
- Secured chat routes using JWT (JSON Web Tokens) to ensure private and authenticated access.

Certifications & Achievements

- **LeetCode:** Solved 130+ problems using C++ and SQL.
- **Hacktoberfest 2025:** Won 6 badges and a physical t-shirt for contributing to open-source repositories.
